Hope your child is doing fine with reviewing the material and preparing for the test. This is NOT a "fail-pass" exam so please take it easy. If you want to check how far your daughter/son has gone with the material, simply let her/him do the "Test Sample" that was uploaded on our website last week. The copies of test samples as well as the revision sheets are also available at school.

For those of you who have any questions or matters concerning the tests or any other issues, kindly note that there are teachers on duty every day. Please feel free to call or contact us any time.

Once more I'm asking you to provide your child with the healthy and stress-free atmosphere while studying. I'm sure that with our guidance and your support your child will do absolutely great with this simple test. Good luck!

Best regards,  
Mrs. Agnes Nowicka El - Sahli
