Writing

One of the most important things is to remember that your child needs to practice to become better! Some of the kids will need lots of guidance and assistance. It is important that when assisting your child at home you provide a model with the correct strokes. You also need to watch to be sure your child is following the proper sequence in forming the letters. Therefore I'm sending you alphabet reference sheets with arrows indicating the correct letter formation. Encourage your child to hold his/her pencil correctly!

Good writing habits:

- Sit up tall
- Keep both feet on the floor
- Keep your paper straight
- Put both arms on the table
- Pull your pencil toward the middle of your body
- Hold the pencil firmly with your thumb and your first finger
- Do not squeeze the pencil when you write
